

PLANT ADVANCED INTELLIGENCE

Your plant-business admin. Together in one place.

See the profit of every machine, every month — from your own figures. The commercial ledger, rate book and AI job-pricing built for plant hire, groundworks, quarrying, demolition and haulage across the UK & Ireland.

Built for the whole trade.

The office a busy plant business doesn't have — costings, pricing, invoicing, payroll and compliance in one place, worked from your own numbers.

Profit per machine, every month

The operating margin of every single machine, this month, from your own figures. See which earn and which bleed.

The office you don't have

Costings, quotes, invoices, payroll, CIS & RCT — the back-office work a plant business runs on, no bookkeeper needed.

AI that prices from your numbers

Price any job — earthworks, muck away, crushing, craneage to 500T, haulage — from your own rate book, with quotes and invoices as PDF.

Tax worked out for you

VAT, PAYE, CIS (UK) and RCT (Ireland) on any figure — gross to net, deductions, what's due and when.

Every machine, any make

Excavators to 100T, dozers, ADTs, cranes to 500T, haulage, telehandlers, crushers — any manufacturer, your rates.

Policies & compliance

Create and store your Environmental and site policies for tenders. Red diesel, HVO and net-zero built into pricing.

WHAT'S INSIDE

Everything your business runs on.

One organised workspace across desktop, tablet and mobile — your records sync across all of them, and install it like an app.

- ✓ **Plant register & asset values** — every machine, make, model, hours, value — any manufacturer in the world
- ✓ **Profit & loss per machine** — earnings against fuel, operator, finance, maintenance and running costs
- ✓ **Rate book** — mini diggers to 100T, cranes to 500T, haulage, trailers, telehandlers, crushers, containers — your rates
- ✓ **AI job pricing** — earthworks, cut & fill, muck away, utilities, drainage, street/road works, surfacing, demolition, quarrying, crushing, craneage, haulage
- ✓ **Quotes & invoices** — raised in seconds, VAT and reverse charge handled, saved as PDF
- ✓ **Customers** — who you work for and what they owe you
- ✓ **Payroll, CIS & RCT** — PAYE, subcontractor deductions (incl. gross status) and what's due to HMRC or Revenue
- ✓ **Maintenance & downtime** — services, repairs, next-due, and what breakdowns cost
- ✓ **Sales, costs & VAT invoices** — live income, expenditure and net position
- ✓ **Environmental policies** — create with AI or your own, store and download for tenders
- ✓ **Cloud** — every invoice, payroll run and report saved and ready to download
